

# Offshore Wind MSP Challenges

Nichola Lacey

06 February 2025

[WWW.XODUSGROUP.COM](http://WWW.XODUSGROUP.COM)

# Misalignment

MSP globally has variously been implemented as a way to<sup>1</sup>:

conserve and restore nature,

address conflicts between users and uses at sea,

improve government coordination,

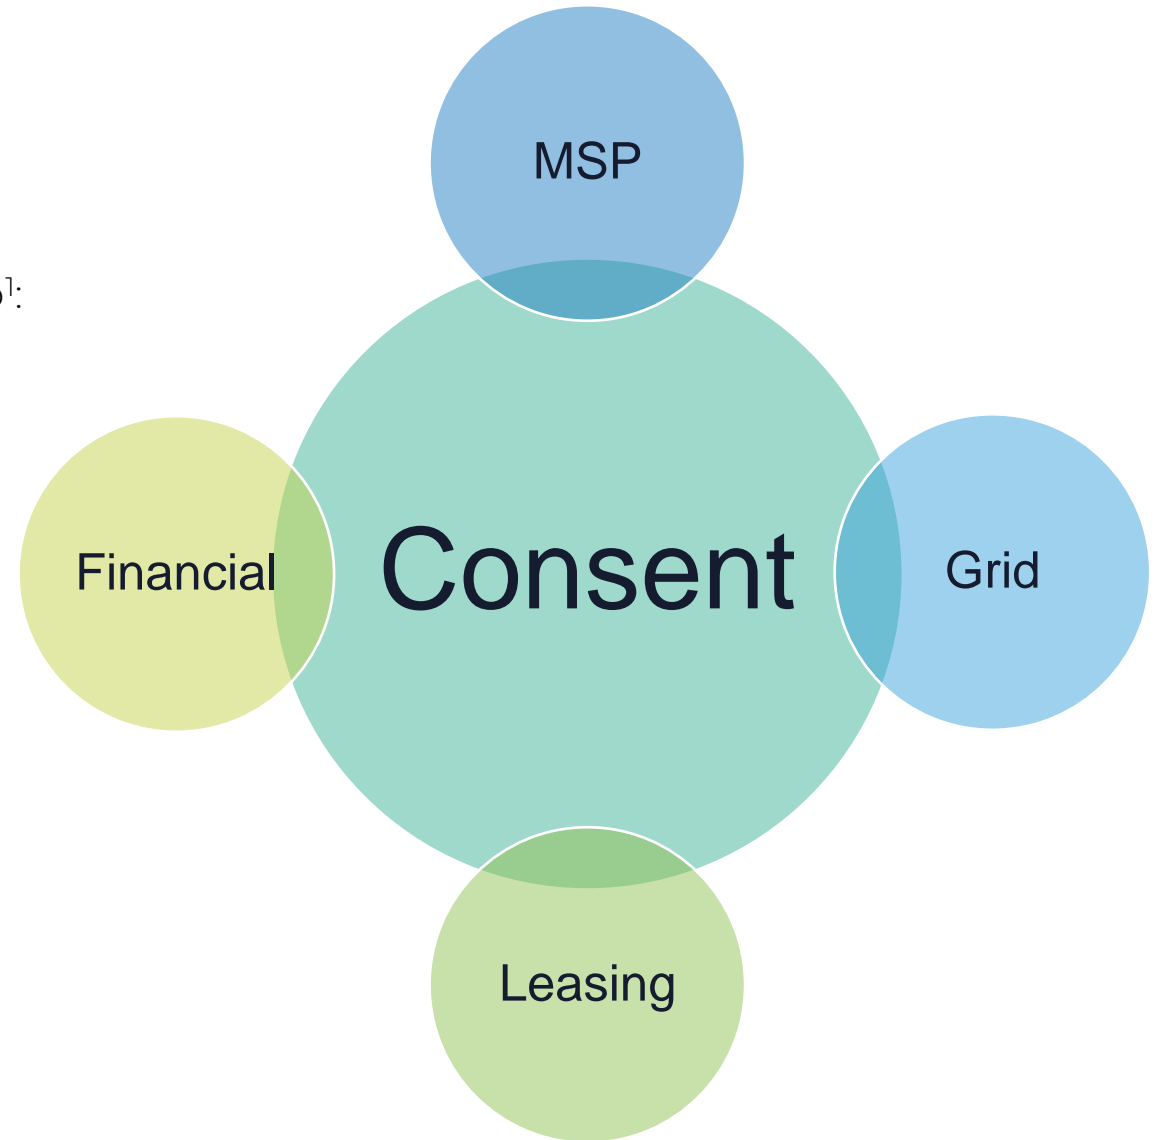

address inequities in and deficits of current forms of sectoral coastal, and marine governance,

tackle climate change, and

facilitate positive outcomes for human well-being.

1. Zuercher et al., 2022  
2. OWIC (2024)

# Moving forward

- Avoiding reactive policy making
- Effective management of conflict
- Inconsistencies in use between regulatory agencies
- Effective utilisation of plan policies and objectives in decision making

A step taken..

## The Marine Recovery Fund:

- Strategic environmental compensation
- Increased certainty for developers
- Unlocking investment
- Enhanced collaboration

TOGETHER  THE SUM OF ALL OUR PARTS
