Chris Stirling, Enhancing Excellence

Humility is a safety tool

Human error is **inevitable**.

Learning is optional.

Ego says: “not me”.

Humility says: “absolutely me”.

Mandatory doesn't
mean **meaningful**

Enforcement isn't the same as
learning.

Small moments build **trust**

Policy doesn't shape behaviour. **Experience** does.

From Report to Reflection

“What would I have done?”

SAFETY
REPORTING

Excellence**
Engage • Equip • Excel

Real Stories Create **Real Learning**

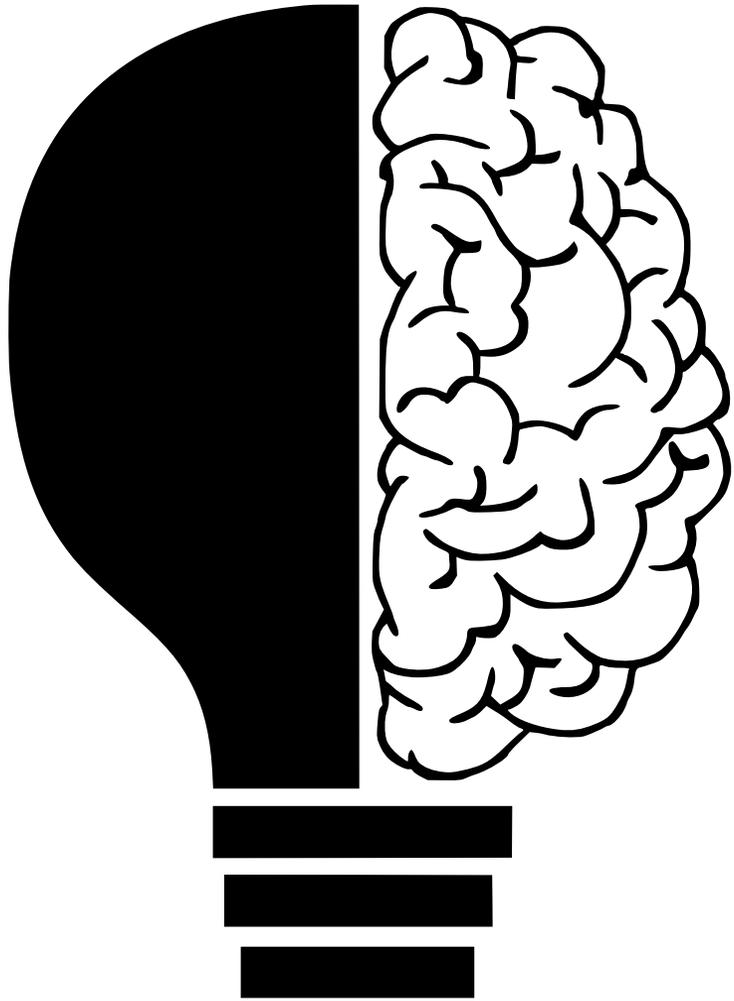

if it could have been me, then I'm listening.

**IT COULD
BE YOU!**

Startle, Stress, Self-Doubt

Are **Human**, Not weakness.

A glass sphere sits on a reflective surface of water. Inside the sphere is a small globe of the Earth. The background is a blurred, wavy pattern of light and dark green and blue, suggesting water ripples or a soft-focus landscape.

Culture Is What People **Experience**

Thousands of **imperceptible** small **moments** of change...

Reporting Becomes Learning

Lead **Safety** with **Humility** and **Intent**

Thank you.
